STAINLESS STEEL FAUCETS

Made by Hand...

Four Radius Sink Collections borrowed from the techniques of the past to create the best of our contemporary performance bowls. By crafting the corner radius to our discerning specifications, we can offer the choice of four levels of handcrafted excellence.

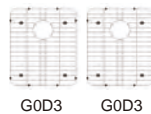

Zero Radius Collection

The Zero Radius Collection offers a performance sink for the serious cook. Handmade premium type 304 16-gauge stainless steel with easy clean satin finish and 5-Side sound baffling, plus our superior X Channel drainage technology. Zero Radius Undermount sinks will handle any situation and look great doing it.

The Entertainer

The Entertainer, It's the center of attention before, during and after the party. A split cutting board hides the sink and preserves precious counter space when not in the party, a wine chiller, a condiment station, and bar during the party and then clean up station after the party

The Entertainer is more than the sum of its parts and will prove to be the gathering spot at your next party.

LENOVA™

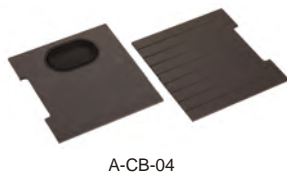

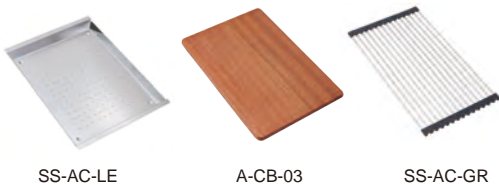

The Ledge Collection

Form follows function in these award winning multifaceted commercial-grade 304, 16 gauge sinks. The engineered ledges in the bowl provide a platform for an available stainless steel colander, a space saving roll up grid drainer and a red wood cutting board. The ledge sinks are versatile food prep centers and clean up centers. Designed to be either undermounted or top mounted. These sinks are designed to fit any kitchen application, and won the best design of the year from Interior Design Magazine.

PermaClean Sinks

A minimalist sink with maximum advantages.
The first real change in sink design in decades

The exclusive PermaClean system from Lenova has a streamlined modern look and an innovative drain design that provides a stylish and sanitary solution to the traditional kitchen sink, disposal and drain seams disappear for a smooth and sanitary solution to the traditional kitchen sink drain.

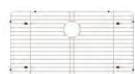

A fundamental shift in sink design, PermaClean sinks feature removable splash guards that are dishwasher safe and strainer baskets seal both the drain and garbage disposer. The heavy duty 304, 16 gauge stainless with an elegant silk easy clean finish compliments any decor.

Porcelain Pure and Simple

Sleek and smooth is the feel of a porcelain bath sink.

Porcelain pure and simple is always a good answer to any creative question.

Porcelain Above Counter

The Porcelain Above Counter sinks offer a rich array of unique shapes for the bathroom. Made from our own formula of high quality fine porcelain clay with other special materials, molded to shape and heated to over 2400 degrees Fahrenheit. Our factory is located in a town which has more than 400 years of porcelain making experience. This process, plus our history, is what gives our porcelain its strength and translucent beauty.

Bamboo Bathroom Collection

Bamboo is an undeniably green product that fits so naturally into the bathroom environment. It is that combination that has made bamboo such a successful material choice. The good it does for our planet is returned to the user in how well bamboo harmonizes with organic and more contemporary designs. Using fully matured Moso Bamboo for its peak density and color clarity, we employ a 13-step process to produce our sensational Bamboo Above Counter sinks.

The exciting new Bamboo Sink Collection offers this diverse selection of natural green bathroom sinks.

The Emperors' Coppersmith

Not far from the gates to the Forbidden City sits the factory that makes our fine copper sinks. Said to be in the same building, with many of the same tools, by the same family that has been there hammering copper for centuries. True beauty is timeless.

Copper Kitchen Collection

Our exquisite Copper Kitchen Collection will add a richness that comes only from copper. Made of the highest quality copper in 14-gauge, they are lead and mercury free. Copper is considered to be a living finish that ages with use and develops a beautiful patina. Copper is also naturally hypoallergenic, recyclable and corrosion resistant. Each sink is hand hammered in a process called “work hardening” that strengthens the material. Known as the “red metal” copper possesses a color like no other. It will add a special warmth and beauty to any kitchen.

Romancing the Stone

Our global search for beautiful stone has resulted in a love affair with each color and the region in which they were found. Rich Black Granite from Brazil, Northern China, India. Smooth White Marble from Italy, Northern China, Southern China. Translucent Onyx from Pakistan, Central China and India. Stunning Red and Gold Marble from Southwestern China.

Smooth Apron Group

The Smooth Apron Group offers an exquisite collection of classic kitchen sinks. There are few more beautiful elements than the natural stone that is crafted and polished to perfection. This process begins with a solid block of 100% natural stone that is then given its rough shape. Then skilled stone craftsmen take up to 10 days to hone each sink to its final form. The unique beauty of Mother Nature is expressed in each Smooth Apron Sink.

Modern Design Bathroom Vanity

Lenova introduces its new line of solid natural stone sinks and stainless steel standards. The elegance of solid stone matched with the simple lines of a satin finished stainless steel stand gives a sophisticated modern look to the bathroom. The sinks are available in three standard sizes and 3 colors to compliment most bathrooms. The unique hidden drain system in the back of the sink provides a clean look to these handcrafted sinks. The sinks and standards are available seperately for maximum flexibility.

Glass Vessels are Beauty in the Bath

Powder room, family bath or master suite, bathrooms have assumed a position of prominence in the home. It seems so right to place an object of beauty in the bath to enjoy. Tempered for strength, designed for your pleasure, the bath series offers the best range of styles imaginable.

Clear Glass Vessel

The Clear Glass Vessel Group expresses a celebration of water in the form of glass. Made of tempered glass, these vessels undergo an 11-step process and go through many gifted hands to create these beautiful works of art. Clear and or frosted, smooth or textured, the Glass Vessel Collection has the perfect appointment for your design.

NovaGranite Collection

NovaGranite Composite Sinks

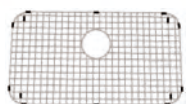

The NovaGranite Composite Sinks bring a new level of science into the kitchen. The material is a mix of 85% crushed granite powder and 15% organic and non-toxic chemical materials. The high density of granite in these composite sinks makes them highly resistant to scratches, chips and stains. The heat handling capabilities of this composite will allow you to take a hot pan from the stove directly to the sink without danger of burning or marring the finish. Because of the ingredients, the NovaGranite is also completely recyclable.

NovaGranite is available in four kitchen configurations including small and large single bowls, as well as equal double and unequal double bowl. Additionally, there are two bar sinks, round plus rectangular. All NovaGranite will be offered in Matte Black, Antique White, Dark Coffee and Matte Gray. NovaGranite combines stone and science for a magnificent new creation. This mixture of granite powder and natural substances results in fresh and exciting sink styles.

Solid Stainless Steel Faucet

Lenova introduces its new line of solid stainless-steel kitchen faucets. The collection includes a wide variety of models designed to fit any kitchen with styles ranging from sleek to traditional. The stainless-steel construction of the faucet line eliminates concerns associated with lead, and a satin polish offers good looks with minimum care. All the faucets have long-life ceramic disk cartridges, while the stream and sprayheads are crafted from stainless steel for durability.

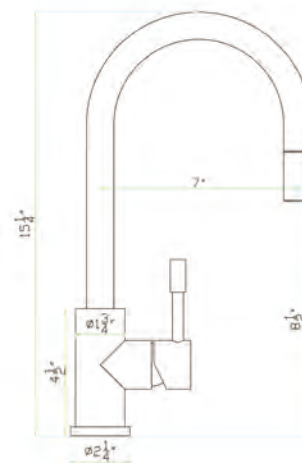

Lenova's new faucet line incorporates a variety of models for the kitchen and laundry.

Phoebe "Ring of Saturn" **SK100**

WANT THE **BEST SINK** FOR YOUR HOME?

INDUSTRY EXPERTS CHOOSE THE LEDGE PREP SINK!

The innovative new **Ledge Series** includes **four models**, each featuring a 90 degree ledge pressed into the front and back of the sink that converts it to a **food prep center** when **accessorized** with optional stainless steel **colander**, wood **cutting board**, and unique roll up stainless steel **grid drainer**. The series includes two 33" x 22" sinks, one single and one double bowl. The double bowl features a low divider so large pans with long handles fit in the sink easily. Also available is a large 38" single bowl sink and a 25" single bowl for smaller kitchens.

The sinks can be mounted as drop in sinks or undermounted; and are constructed of durable, **commercial-grade 16-gauge stainless steel** ensuring the **sinks will last a lifetime** in a busy kitchen.
