

HYDRO-RAIN[®]

Built for Speed®

ABOUT HYDRO-RAIN®

Hydro-Rain[®]'s contractor-grade line of landscape irrigation & low voltage lighting products for the professional market sets a new standard for engineering, manufacturing, sales, and customer service.

Hydro-Rain[®] has listened to the professional whose success and business are dependent upon uncontestable product performance and reliability.

With a competitive go-to-market strategy, Hydro-Rain[®] engineers an irrigation system component package that installs faster and "greener" than that of industry competitors, while maintaining complete parts interchangeability and low switching cost. Tight tolerances and strict conformance to engineering standards, coupled with instantaneous service response, are Hydro-Rain[®]'s benchmarks of quality.

Commitment to the essential values of integrity, lasting relationships and fair dealing is at the heart of Hydro-Rain[®]. Importantly, these relationships, in combination with Hydro-Rain[®]'s exceptional technology and quality, set it apart from others in the industry with an "assembly line" approach to customer service. Hydro-Rain[®] associates remember that customers are "NUMBER ONE" and treat each customer in a respectful and attentive manner. By treating the relationships between manufacturer, distributor, and contractor as more than just a series of business transactions, Hydro-Rain[®] brings exemplary working partnerships and advantageous profit margins to its customers.

Hydro-Rain[®]-not "just another name" in the marketplace.

WARRANTY

Hydro-Rain[®] warrants to its customers that its products will be free from defects in materials and workmanship for a period of three years from the date of purchase. We will replace, free of charge, the defective part or parts found to be defective under normal use and service for a period of up to three years after purchase (proof of purchase required). We reserve the right to inspect the defective part prior to replacement. Hydro-Rain[®] will not be responsible for consequential or incidental cost or damage caused by the product failure. Hydro-Rain[®] liability under this warranty is limited solely to the replacement or repair of defective parts. To exercise your warranty, return the unit to your dealer with a copy of the sales receipt.

* Two year warranty extension available to Hydro-Rain® Contractor Advantage "Premier Level" contractors.

HYDRO-PLAN® & HYDRO-QUOTE®

The Hydro-Plan[®]/Hydro-Quote[®] system by Hydro-Rain[®] makes quote preparation faster, easier, and delivers a more professional-looking quote packet than traditional hand-drawn or software-based methods.

Property measurements can be imported through mapping software and the input placed directly into Hydro-Plan[®]. Hydro-Quote[®] then automatically generates a completed plot plan, parts list, and customized quote and contract in minutes! It's just one more way that Hydro-Rain[®] is helping make your business "Built for Speed[®]."

Access to the Hydro-Quote[®] system is a privilege that comes with a few strings attached. If you're interested in taking it for a test drive and seeing what it can do for you, please submit your contact information, your company logo and your Contractor Advantage account number to the following email address: hydroplan@hydrorain.com. Please include "Hydro-Quote[®]" in the subject line.

HRP 200

Tough economic times bring opportunities for innovation and new thinking. Your customers are looking for ways to save money and the Hydro-Rain® catch cups with the Irrigation Audit App positions you to provide customers with water saving solutions. HRP 200 App with companion catch cups provide accurate readouts of both residential and commercial irrigation systems, allowing you to make suggestions for upgrades and changes.

First, durable, UV-resistant plastic catch cups with easy-toread markings bring speed and accuracy to the job site-Perfect for testing individual irrigation zone uniformity.

Next, the HRP 200 Irrigation Audit App lets you quickly record the data while on the job. The App gives fast, free and accurate results of the irrigation audit, allowing you to program the customer's controller on the spot for maximum water efficiency.

With readouts this accurate you'll be able to advertise not just the greenest lawns, but the lowest water bills.

FEATURES AND BENEFITS

- Fast Deployment and Takedown—Installed and gathered quickly so you can get on to the next job.
- Easy Readouts—Clear, injection-molded plastic catch cups give easy readouts of each cup.
- **Durable Plastic**—UV protected plastic cups and stakes make for long-lasting catch cups that will withstand the pressures of professional use.
- **Expandability**—Catch cups come in packs of twelve but can easily be expanded to provide more accuracy.
- Companion App—Hydro-Rain[®]'s Irrigation Audit App gives readouts on the go. Works with all major mobile devices and tablets.

HYDRO-RAIN[®]

Built for Speed®

Blu-Lock[®] is proud to introduce the new Blu-Lock[®] Nitro Saddle[™], the fastest irrigation saddle on earth. Just last year, the 10 second installation time was the barrier to beat. Now turbocharged Blu-Lock[®] saddles have shattered the record, and they just keep running faster.

The first key to the Nitro Saddle's amazing reponse time is the molded-open position of the body clamp, allowing the installer to snap the body over the pipe, push, and lock. That's it. The second key is the tap-thread ratio, where we've cut in half the number of revolutions required to lock and load it. The final key to speed is the addition of a Blu-Lock[®] swing pipe adapter in the tap (02918), allowing the installer to go straight to pipe (37980) or Blu-Lock[®] swing assembly (37979).

We didn't stop at speed. We also took the pain out of installing saddles by including an ergonomic body clamp, tap wing and, most important, the ease of the Blu-Lock[®] swing adapter (37979). Say goodbye to fatigued hands and hello to the world's fastest install. With Nitro Saddles[™], the record books have been totally rewritten.

BUILT FOR SPEED ADVANTAGES

- **Under-5-Second Install**—The industry's certified lowest installation time.
- 1/2" **Blu-Lock**® **Tap**—60% reduction in installation time with pipe to head connection.

BUILT FOR GREEN ADVANTAGES

- Eliminates Chemicals—Say goodbye to PVC, primers and glue.
- **Minimizes Waste**—Saves energy and time compared with open trenching.

FEATURES AND BENEFITS

- Swiss-Engineered Schenkel Clamp—Fast, onehand installation.
- Ergonomic Grip—Comfort, confidence and speed under any condition.
- High-Impact ABS—Guaranteed durability.
- Best-In-Class Flow—Up to 14 GPM at 40 PSI.
- Compatibility—80~100 PSI PE pipe.
