

## Oilers

Reed Oilers effectively deliver threading oil as the gun-and-trigger approach makes it easy to pump oil directly on the work. The rugged and completely portable Reed **OLBUCKET1** (#06150) comes with a 20-gauge steel bucket and steel drip pan/chip tray along with oil gun and a 60" industrial-grade hose. #97375 drip pan/chip tray is available separately and interchanges with Ridgid's® plastic chip tray. The system double-filters and recirculates oil as the chip tray catches the big waste pieces and the filter strains out any small particles. Oil gun features a sturdy nozzle made from turned aluminum. This system ships with one gallon of Reed Threadguard dark cutting oil (#06120).

**OLKIT1** is the oil gun, hose, cap, clamp, and seal.

*NOTE: Approximately one gallon of oil in the bucket is required to meet the minimum fill line. USE REED DARK OR CLEAR THREADGUARD CUTTING OIL (BELOW) FOR BEST RESULTS.*

### ✓ WHY REED?

Much stronger and longer-lasting than oilers with plastic drip pans/chip trays. 60" (not 54") hose maximizes user convenience. Both features eliminate downtime and save money.

Metal Bucket

Reed provides over 110 years of quality die-making expertise.

### ✓ WHY REED?

Higher lubricity for longer die life and faster cutting speed.
