

10" Sliding Dual Compound Miter Saw C10FSHPS/C10FSBP4

The Hitachi 10" sliding dual compound miter saw offers the ultimate form and function for trim carpenters, framers, and woodworkers. The positive stops on miter and bevel scales make for easy to read measurements and quick settings. With a 45 degree dual bevel angle range users can quickly flip the saw blade and leave the material in place. The linear ball bearing slide system and white on black miter scale provide superior accuracy and visibility. Electronic speed control keeps RPM's constant and unintended cuts are avoided with the electric brake feature.

Features Include:

- **57 degree miter angle to the right** for ultra flexibility with 45 degree miter angle to the left
- **0-45 degree dual bevel angle range** to the right and left allowing users to quickly and easily flip the saw blade and leave the material in place
- **Positive stops on miter and bevel scale** for easy to read measurements and quick settings
- **Adjustable pivot fence** broadly supports work piece for improved stability while cutting
- **Linear ball bearing slide system** with white on black miter scale for superior accuracy and visibility
- **Soft start function** reduces noise and recoil during startup
- **Electronic speed control** maintains RPM while cutting and improves control
- **Electric brake feature** halts the rotation of the blade within seconds preventing unintended cuts
- **Carbon brush access** allows user to replace brush as needed to greatly prolong the life of the tool
- **Highly efficient dust collector attachment** collects more dust than previous models
- **Splinter guard** prevents splintering and increases safety
- **Laser guide for precise cutting** easily adjusted for users preference (C10FSHPS only)

Optional Accessories for the C10FSHPS

Crown Molding Vice Assembly
The C10FSHPS has the optional crown mold vice assembly feature which allows the user to cut crown molding without tilting the saw blade. Simply attach the crown molding vice and stoppers to the saw as illustrated and adjust accordingly. This feature saves the user valuable time and simplifies cuts when walls are not square.

Crown Molding – 321434
Vice Assembly
Left Stopper – 321374
Right Stopper – 321373

Right Fence Guard
If a high fence is desired on the right hand side, this optional right fence guard accessory is available

Left Fence Guard – 321553
