»» Stainless Steel Linear Shower Drains

## Stylish

Showers with linear drains offer a unique, contemporary appearance.

Enhance the look of the shower floor with a modern strainer design, or “hide” the drain with a tile-in strainer.

## Practical

Floors slope in one direction to the drain for an easier pre-slope. Perfect for barrier-free applications.

Linear drains allow for large-format tiles to be used in the shower area.

## Installation

## Dimensions

## Three Strainer Patterns and Six lengths Available
