

# = Three Times Longer Life.

At Takagi, we've combined water heating and treatment in a new product designed to revolutionize tankless water heating.

Introducing Takagi's new condensing gas tankless product line with X3™ Scale Prevention Technology. Our cutting edge X3 Technology extends the life of the unit three times longer than traditional tankless, and makes it the first tankless product that maintains "like-new" performance without requiring regular scale-related maintenance.

## UNIT DIMENSIONS

Height	Width	Depth	Height With Filter
27-13/32"	17-11/16"	11-3/16"	44-19/32"

### X3™ Scale Prevention Technology

- Extends the life of the unit up to three times longer\*
- Eliminates the need for regular scale-related maintenance
- No warranty exclusions for hard water
- Maintains "like-new" performance longer

\*Compared to other tankless models without X3 Technology

### Other Features:

- 2" PVC venting for easy installation
- Allows for operation with 1/2" gas line; features 1/2" gas connection at unit
- Highly efficient performance/ENERGY STAR® qualified
- All models are fuel convertible and indoor/outdoor
- Ultra-Low NOx emissions
- Integrated recirculation pump comes standard
