

High-Performance Return Grille Filters

When installed into your home's ceiling or wall return grilles, Resideo's High-Performance Return Grille Filters provide superior air filtration that's up to 10 times more effective* than standard one-inch filters. It helps trap airborne dust, pollen, mold spores, bacteria and other allergens that pass through your HVAC system. It also lasts up to three times longer than standard one-inch filters, which mean less maintenance for improved indoor air quality.

*Based on initial efficiency analysis of new filters tested at 3-10 micron particles at 295 feet per minute of airflow.
