

Strap Wrenches

Provides gripping power without scratching or deforming plastic or polished metal pipe. Use on plastic pipe, filters, or any slick or smooth surface. Strap wrenches work well on irregular shapes, too. Reed's extra strong, coated polyester strap provides slip resistance, and durability. **SW12A30** and **SW18A48** have extra-long straps for increased leverage on large diameters. SW12A30 is popular for filters.

Catalog No.	Item Code	Pipe Capacity		Tube Capacity		Handle Length		Weight	
		Inches-Nom.	Actual Ø mm	Actual inches	Actual Ø mm	in	mm	lbs	kg
SW12A	02248	1/8 - 2	10 - 63	3 1/2	90	12	305	1.6	0.7

REPLACEMENT STRAPS

Catalog No.	Item Code	Fits	Size
SW12AS	92248	SW12A	1 1/4" x 17"
SW12A30S	92247	SW12A30	1 1/4" x 30"
SW18AS	92249	SW18A	1 3/4" x 30"
SW18A48S	92246	SW18A48	1 3/4" x 48"
SW24AS	92250	SW24A	2 1/4" x 54"

Hydrant Wrenches

The **HW** forged steel and economical **HWB** cast ductile iron wrenches fit pentagon nuts up to 1 3/4" or square nuts up to 1 1/4". Both wrenches also have spanners for either pin or lug style hose couplings. Hydrant Wrenches are zinc-chromate plated for corrosion-resistance. The **HWS45** is a Storz® style wrench for hydrants and 4" and 5" Storz® fittings. HWS45 has a ductile iron head and a steel handle. The head and threaded handle adjust to fit standard sizes of pentagon and square hydrant nuts. A spanner hook is part of the head casting, which loops out to grab lugs on the Storz® style fittings, allowing the whole wrench to turn these fittings for maximum leverage.

Catalog No.	Item Code	Pentagon		Square		Length		Weight	
		Inches-Nom.	Actual Ø mm	Inches-Nom.	Actual Ø mm	in	mm	lbs	kg
HWB	02283	1 3/4	45	1 1/4	31	20.0	500	4.5	2.0
HW	02295	1 3/4	45	1 1/4	31	20.0	500	4.0	1.8
HWS45	02390	1 3/4	45	1 1/4	31	20.5	517	4.9	2.2

✓ WHY REED?
Solid bar stock handle on HW/HWB is both strong and knurled for more secure gripping for critical field applications.

Chain Wrenches (Heavy-Duty)

Turn any shape in close quarters. Dual reversible (and therefore more economical) jaws permit ratchet action in either direction without removing the wrench from the pipe.

*EXCLUSIVE

✓ WHY REED?
Reed chain wrenches offer by far the most sizes and are longer lasting because they have up to twice as many chain slots as any competitive tool, thus spreading the force across more chain slots and providing greater operator safety.
