14 GALLON WITH CERTIFIED HEPA FILTRATION

The RIDGID Model RV2400HF professional wet dry vac is a 14-gallon, 2-stage wet dry vacuum with certified HEPA Filtration that meets EPA's definition under the RRP rule for lead paint renovations. It delivers the high-lift suction, large capacity, rugged construction for pro, contractor and industrial use.

- 11.5 Amp Motor – Drives two blower wheels to optimize suction and deliver industry-leading performance.
- Longer Motor Life – Over 700 hours on average.
- 2-Piece Polypropylene Drum Construction – Rugged construction to meet the higher demands found at worksites.
- 2-Stage Motor – Creates powerful "high-lift" suction and more efficient air flow. Result – more suction power and quieter operation.
- 3 Layers of Filtration – Disposable high-efficiency filter bags collect larger debris. Then a washable fabric filter cover captures particles down to 0.5 microns. The certified HEPA filter then captures the smallest particulates down to 0.3 microns.
- Oversized Drain – Large drain located at the lowest point of the drum for emptying of water.
- Accessory Storage Caddy – Keeps accessories organized and close by for easy access.
- Cord-Wrap/Large Handle – Large carry handle provides an area for the storage of the 25' power cord.
- Blowing Capacity – Blow leaves from walkways or decks and debris from jobsites, tools, etc.
- Professional Locking Hose – The ultra-flexible hose won't pull loose during use, and is four times more durable than our standard hose. This 1 $^{7}/_{8}$" x 10' hose has a smooth interior surface to reduce clogging.
- Locking Accessories – Included accessories lock together, so nothing falls off when in use.
- Qwik Lock® Filter Fastening System – Install or remove your filter quickly, easily and secure without tools or fasteners.
- Includes – Vacuum, owner's manual, 2 extension wands, 1 $^{7}/_{8}$" x 10' premium locking pro hose, utility nozzle, wet nozzle, 14" floor brush, crevice tool, muffler/diffuser, filter bag, cloth pre-filter, certified HEPA filter, "beater bar" turbo brush with connector, and dusting brush.

SPECIFICATIONS

- Accessory Diameter – 2 $^{1}/_{2}$"
- Amperage – 11.5A
- Built-In Accessory Storage – Yes
- Built-In Drain – Yes
- Casters – Yes
- Filter Type – HEPA Filter
