

Maxitrol Regulators

325-L Series

Ward Manufacturing LLC.

117 Gulick Street
Blossburg, PA 16912
Tel. (800)248-1027

Description:

Maxitrol Regulators are line regulators used to control and adjust pressures for 2.0 PSI and 5.0 PSI systems.

Features:

- Suitable for a variety of gases including natural gas and LPG
- Lever Acting Design
- Outlet pressures can be adjusted from 7" W.C. to 11" W.C.
- Outlet pressures preset at 8" (Natural Gas) or 11" (Liquid Propane Gas)
- All Maxitrol regulators supplied by Ward come with a vent limiter, an alternative option to venting.
- Regulators supplied for 5.0 PSIG come with an Over Pressure Protection Device (OPD)

Certifications:

- ANSI Z21.80/CSA 6.22
